

**“...signs should be short and to the point ...” (Well, yea, if you are on I-96 flying by a billboard, but if you’re reading this sign in Milford, you’re probably at about two, maybe three miles per hour, so we’ve got some time) anyway, all of your **hometown merchants****

are open and looking forward to seeing you in the next few weeks during construction, which should only take about **three weeks** because the contractor has a **HUGE incentive** to get done by September 9 and every job that the Village has done with an incentive

has worked. anyway, everyone downtown knows we have to do it, but boy, it's going to hurt having **Main Street** closed ... even if it is sort of a short construction period, every **DAY** is important to a **small town**... so all the merchants got together and came up with

a couple ideas for their customers,  
like the **SHOP AND DINE** card  
that's just for Milford...

it's cool...

merchants are giving them out  
to their customers for a free

dessert at, like,

eight places!... Oh, I guess  
we are running out of...
